

Poster Presentation

We adopted the following guidelines from the ICCE 2008 poster instructions. You will have a 5-minute oral presentation to introduce and “promote” your poster at the end of the oral sessions on either Monday or Tuesday (see NCK Program for when you are scheduled to present your poster). The “oral presentation” of your poster is scheduled first. After posters have been presented, there will be a poster session in which attendees can view posters and talk to you one-on-one. Please read the following carefully for the preparation of your poster and the short presentation.

A short oral presentation - The time available for each poster is **5 MINUTES PRESENTATION** in the two poster sessions. Authors will have the opportunity to present their work (poster content) within **3 SLIDES**. Please make sure that you hand over your presentation material (**DVD, CD-ROM** or **MEMORY STICK**) to the technical assistants well in advance of the scheduled time of the poster sessions.

Preparation - Poster boards will be provided for mounting each poster exhibit on a display panel of **A0 SIZE** (width 0.841 m × height 1.189m; 33 in x 46 in) in **PORTRAIT** orientation. The text should be printed or typewritten and enlarged so that it can be read from a distance of at least 2 meters.
